For City Comptroller.
We are authorized to announce ALFRED W. R. HARRIS, Esq., as a candidate for City Comptroller at the April election.

The News.

The Intelligence argues that the

organization of Colorado, Nevada and

Deseret Territories was effected by Congress

upon principles which, if carried out, would

lead to the speedy and harmonious settle-

ment of our national difficulties.

Com. Stewart has not resigned, as

telegraphed. His objects, however, to be

named as senior flag officer in the naval

register, there being no such rank, and asks

that he be placed at the head of the list of

captains, where he stood before he was dis-

placed by the naval retiring board.

Adjutant-General Thomas says no

troops have been ordered from the West,

excepting those stationed on the frontier of

Texas.

The resignation of Captain Withers,

Assistant Adjutant-General, was owing to

large private interests in Texas, which he

thinks his personal situation to prevent

recognition of them.

The telegraph from Washington is

mixed. One day favorable to peace and

conciliation, and the next of an opposite

complexion. The Administration should

recognize a fact, in the face of all theories

Seven States claim independence, and will

be revolutionary. They are as resolute

as revolutionaries usually are, and perfectly

aware of the fact that they can't be subdu-

ed, and that they can make good their

claim, in spite of the Administration. The

worst that can happen is war and its cala-

mities, and they have made up their minds

to stand that; and they have Mr. Lincoln's

assurance that the fight can't last always;

that the whole matter must be settled at last

by negotiation.

Mr. Lincoln is not President of the whole

United States, and cannot be by force. The

Administration must recognize this fact, or

the country will suffer the consequences.

Molding forts and collecting revenue will be

held by the Seceding States as an act of

war.

It is not worth while to discuss the right

or wrong of the Seceding States to the pos-

sition they occupy. They will not be con-

vinced by any discussion, and they can't be

put down by force. It would be fatal to our

Union, if it could be done; that is, fatal to

any Union it would be desirable to have.

A graceful abandonment of what is impos-

sible to maintain would be a wise stroke of

policy on the part of the Administration, and

three-fourths of the people of these States

would approve and sustain it. It would

strengthen the feeling of the Union men

South, and be the first step toward a

restoration of the Union to its former integ-

rity. If a contrary course is pursued, it

will prove the Administration to be as cras-

sy as the Seceders. Nothing would do as

easily the latter as to see the imbecility at

temples at force, for they will be imbecile.

The Administration will grow weaker daily

and the Seceding States stronger, and in the

end a separation of the States would be in-

evitable. We shall soon see, perhaps, how

affairs will turn out.

The Seceders are getting up a

Convention to precipitate Kentucky out of

the Union. The Courier interprets the

affair thus:

We hope the response to this invitation

for a conference will be such as to leave no

doubt that the people of the State are pre-

pared to set for themselves a policy of their

own, and to defend it to the last. We hope

that the people of the State will not stop

to inquire how it may be turned to the

advantage of parties which no longer exist,

and should be buried out of sight forever.

The Convention is to be held on the day

that the Legislature meets, and we are in-

formed that the people are prepared to act

for themselves. If the Legislature will not

call a Convention for purposes of revolution,

these men will assume, perhaps, to do it.

We hope the response to this invitation

for a conference will be such as to leave no

doubt that the people of the State are pre-

pared to set for themselves a policy of their

own, and to defend it to the last. We hope

that the people of the State will not stop

to inquire how it may be turned to the

advantage of parties which no longer exist,

and should be buried out of sight forever.

 restorative, but profess to have discovered some-
 thing that would produce results identical, but they
 will come and go, being carried away by the won-
 derful results of Prof. Wood's preparation, and have
 been forced to leave the field to its restitutions a-
 gain. At the following:

BATH, MAINE, April 14, 1899

DR. J. J. WOOD & Co.—Gents: The letter I wrote you
 last, concerning your valuable Hair Restorative, and

You have been troubled in this vicinity and elsewhere, and I have been called to visit you in connection to the case. The inquiries are, first, is it a habituation and name, as stated in the community, may your hair still continue to be in good order and of a fair color? To—I can and do answer invariably yes. I have used the hair oil for more than 20 years past—more soft, thrifty, and better colored; name is true of my whiskers, and the only cause why I have not more of them is the fact that I have frequent abrasions of the face, when if care were taken by wiping the face in close connection with the hair oil, it would grow in more luxuriantly. In the receipt of a great number of letters from all over the world, I have been asked if my hair still continues to be good, as there is much inquiry about the use and sale of various compounds, as well as their effects. I have no objection to giving the good as well as the bad, and I have no objection to the use of any good effect, but to absolute injury I have not used any of your Restorative of any account, and I have no objection to the use of good and hundreds have examined it with surprise. I am now 61 years old and not a gray hair in my head.

hair taken out the past week. I received your letter of two quart bottles last summer, for which I am grateful. I gave it to my friends and thereby enabled them to try it; many were skeptical until I after and then they all asked me if it with us. I answered them "I will ask as a favor, the very best of favors" by which I can discover fraud in the advertisement by many. I fear, without authority from the doctor, article will insure success, and I believe where good is not doing, the failure is caused by the imitator. It is my duty, as heretofore, to be a doctor of the good, continued effect on my hair. I keep you apprised of me of my unshaken opinion of its valuable

remain, dear sir, yours,
